Ageing potential: It shows great ageing potential. Enjoy it now or within the next 5-6 years after its harvest.

Tasting notes Bright golden yellow color. Charming with a multilevel aromatic profile dominated by the gentle presence of wood. Aromas of exotic fruits, peach and nectarine, blends harmoniously with the scents of vanilla, honey, toffee on a toasted background. Rich and ‘fatty’, luscious with velvety almost creamy texture, great structure and excellent balance, plenty of fruits and impressive ‘buttery’, long lasting finish.

Gastronomy – Serving temperature: *Its complex flavor needs rich dishes. Try it with lobster with butter sauce, fish with sauce or white meat with rich sauces and semi-hard yellow cheeses. Best served at 12-14 °c.*
