

# SAMBUCA

**INFORMATION:** A sweet strong liquor that consists of essential oils extracted through the seeds of star anise. Usually served neat or on the rocks, topped with a few coffee beans (said to represent health, happiness, and prosperity) Sambuca may also be added to coffee or served in a shot glass and set on fire for a moment or two to increase its flavour.

## **Tasting notes:**

The Sambuca coated the mouth like a silky-smooth sheet of satin. The sweetness of Star Anise was the first burst on the tongue with those strong notes of Licorice on the finish.
